RELATIONSHIP COMPACT BETWEEN THE BOISE SCHOOL DISTRICT AND THE BOISE EDUCATION ASSOCIATION

The Boise School District and the Boise Education Association have been involved in an ongoing process of interest-based problem solving and negotiations and the model has proven to be highly effective both at the bargaining table and at settling disputes throughout the District. An essential element of this model is the trust and trustworthiness of the parties. To this end, Boise School District and BEA on behalf of their memberships, wish to formalize a relationship between these organizations, as well as District employees, which will survive the differences in interests, which will endure changes in leadership, which will extend beyond legal and contractual requirements and which will be based on the following principles:

- The Association and District agree that an interest-based approach shall be used as the basis for both individual problem-solving activities as well as contractual negotiations between the parties.
- The Association and the District agree that each group and individual has an equal right to seek the accommodation of their respective interests and to actively advocate those interests.
- The Association and the District agree that in relationships a high degree of trust is essential. To this end, each organization, as well as the leadership of those organizations, will focus on increasing their own trustworthiness as the means of developing and maintaining the bridge of trust.
- The Association and the District agree to refrain from the use of coercive tactics because their use is destructive to the relationship and lessens the commitment to agreements jointly made. Both parties will be open to persuasion at all times in order to avoid reliance on the use of power; the Association and the District will seek to persuade rather than to coerce.
- The Association and the District believe this relationship will promote and expand communications between the parties. To this end, the Association and the District will focus on: Operating in an honest and open manner; promoting and disseminating positive information about the successes of the Boise School District to the media, establishing procedures regarding rumor control, soliciting interests of all stakeholders, consulting with appropriate parties and testing assumptions, and using joint communication statements on key issues.

3. A professional employee hired on a part-time basis, or for part of a school year, shall receive a pro-rated portion of the annual sick leave.
4. Any unused portion of the sick leave allowance shall accumulate from year to year.
5. Sick leave is to be used for absences caused by disability resulting from illness or injury, or other medical and health reasons. Sick leave can also be used for an adoption of a child, childbearing purposes, to care for a member of the immediate family due to his or her illness or disability, or to attend the funeral of a family member. Whenever a professional employee is absent from his/her assignment as a result of physical injury caused by an assault arising out of and in the course of his/her employment, he/she shall be paid his/her full salary for the period of such absence, not to exceed 180 contract days. This benefit will be coordinated with worker's compensation plans and related regulations, and all procedures normally required for filing a worker's compensation claim shall be followed. Requests for such leave must be made in writing to the Superintendent, or designee, through the professional employee's principal.
7. In addition, a professional employee who has exhausted his/her sick leave allowance is entitled to five (5) days of sick leave with the amount of the substitute's pay being deducted from his/her salary.

B. Personal Leave

1. A professional employee will be granted four (4) personal leave days each year. A certificated employee hired after September 1st is entitled to one and one-half (1.5) days of personal leave per semester of service or major portion thereof. Personal leave shall be granted for any reason deemed necessary by the professional employee.

3. Personal leave may not be used immediately preceding or following vacation periods, nor during the first or last week of a semester without previous arrangements with the building administrator. The employee may appeal the principal's decision to his/her Area Director. Personal leave days may be taken as full or half days at the discretion of the professional employee. Advance notice will be given to the building administration when possible.
4. Upon exhaustion of personal leave, up to two (2) days of emergency leave may be granted by the Superintendent or his/her designee. Such leave shall be for absences for substantial and reasonable cause (e.g., flooding, road closure, earthquakes, etc.), which prevents the employee from reporting to work. At the discretion of the Superintendent or his/her designee, additional emergency leave (in excess of the two (2) days) may be granted. The employee shall pay the cost of the substitute for any additional days.

C. Bereavement Leave

Family means a spouse, child, foster child, foster parents, parent, brother, sister, aunt, uncle, grandparent, grandchild, or the same relation by marriage, or legal guardian. In the event a professional employee needs additional time beyond 5 days of bereavement leave, they have the option to use their sick leave. The Superintendent or Deputy Superintendent has the discretion to expand the definition of family.

D. Sick Leave Bank

1. The purpose of the Sick Leave Bank is to alleviate economic hardship brought upon a member by disability resulting from illness or injury. In the event of a disagreement between a member and the Sick Leave Bank Committee as to whether or not a specific disability qualifies the member for a Bank grant, the committee may require the member to submit to an examination by a physician chosen and paid for by the District. The results of such an examination shall be submitted to the committee for its consideration in making a final determination of the application for a grant.
2. Each professional employee of the District covered by this Contract may participate in the Sick Leave Bank. To participate, each professional employee shall contribute a prescribed number of his/her earned sick leave days as determined by the Sick Leave Bank Committee. Sick leave days thus contributed shall be deducted from the individual's sick leave entitlement. The contributed sick leave days shall form a fund of

sick leave days that will be available to all eligible participating professional employees upon recommendation of the Sick Leave Bank Committee for the purpose of alleviating the hardship caused by absence from work necessitated by extended or recurring disability resulting from illness or injury extending beyond the professional employee's accumulated sick leave.

3. The Sick Leave Bank Committee shall consist of two (2) members appointed by the Association and two (2) members appointed by the Board. The committee shall develop and distribute rules and procedures for the orderly administration of the Bank not inconsistent with the terms of this agreement. The committee shall be responsible for reporting to the District's payroll office the names of contributors and number of days contributed. It shall report all days granted by the Bank and all other information necessary for the professional employee's records.
4. Application for use of the Bank shall be submitted to the Sick Leave Bank Committee for its recommendation. The committee shall review the request and determine the eligibility of the professional employee. If the committee deems it necessary, it shall require proof of disability resulting from illness or injury at the time of application and from time to time after a grant has been made.
5. The committee shall have the authority to establish such guidelines, as it deems necessary to administer this program. Guidelines shall have the approval of the Association and the District. After complete review of the application, the committee shall have the authority to make final decisions within the guidelines as to the disposition of the case.
6. In order for a professional employee to be eligible to apply for sick leave benefits from the Sick Leave Bank, the professional employee must: (1) be a contributor to the Bank, (2) have been absent from work due to disability resulting from illness or injury, (3) used all of his/her accumulated Sick Leave days, (4) used all of his/her personal leave days and (5) paid the cost of a sub for five (5) days where his/her salary was reduced by substitute's pay at the rate of \$85.00 a day.
7. The Sick Leave Bank Committee shall determine the number of sick leave days each participant must contribute in order to keep the Bank solvent.
8. The maximum number of days that can be granted in any one (1) fiscal year will be the remaining number of days a professional employee is scheduled to work under his/her current contract. In no case will the granting of leave cause a professional employee to receive more than his/her annual salary for that year.
9. The number of sick leave days granted shall not exceed the number of days absent from work due to disability resulting from illness or injury.
10. Bank grants to a professional employee will not be carried over from one (1) fiscal year to another. All such grants will end at the termination of the school year. If a professional employee does not use all the days granted by the Bank, the unused sick leave days will be returned to the Bank. In no case shall a professional employee be granted more than a total of one hundred eighty (180) days from the Sick Leave Bank for all illnesses or disabilities during any five (5) year period of employment with the District, except when the maximum allowance has been

granted prior to the end of the school year, and in that case the Sick Leave Bank Committee may extend the grant to the conclusion of the school year. After the initial one hundred eighty (180) days has been used, an additional grant of one hundred eighty (180) days shall be available only after five (5) years of subsequent employment.

11. Any employee who requests a second Sick Leave Bank grant in the same school year for the same diagnosis will first pay the cost of substitute pay for one day before being approved for additional Bank days. If the employee's disability or illness occurs over multiple years, the employee must use his/her accrued sick leave days, accrued personal days, and pay the cost of their substitute for one day in order to be eligible for additional bank days.

E. Extended Leave upon Exhaustion of Sick Leave

1. A professional employee who is unable to perform his/her professional duties because of a disability resulting from illness or injury, and who has exhausted all sick leave available, shall be granted leave of absence without pay for the remainder of the school year. The individual's health condition will be reviewed and a decision will be made by the Superintendent to return the professional employee to active duty, extend the leave of absence, or take other appropriate action.
2. To assist the Superintendent in arriving at a decision, the professional employee may be required to take a further examination, physical or otherwise, by a person duly licensed in a medical field to which the disability resulting from illness or injury is related, selected by and at the cost of the District.

A professional employee who is required to serve in a military capacity during the school year will be allowed up to ten (10) days of military leave in any one (1) year. The Superintendent, or designee, may extend the number of days that may be allowed for military leave. Whenever the daily compensation rate for military service is less than the daily compensation for professional duties within the District, the District will pay the difference to the professional employee.

J. Professional Leave

1. As determined by the Superintendent or designee, a reasonable number of such absences from regular school duties shall be approved without any salary deduction provided a written request and explanation is filed and approved by the principal or principals involved before forwarding to the Superintendent's or designee's office for final approval. Such requests may be denied if not filed in the Superintendent's or designee's office at least ten (10) calendar days in advance of the requested absence. In addition, the Association may send representatives to other local, state, or national conferences or on other business pertinent to Association affairs. These representatives may be excused with pay, upon Association request, and with District approval. The Association shall give ten (10) days prior notice to the Superintendent or designee, except in extenuating circumstances.

K. Public Service Leave

1. A professional employee elected or appointed to the Idaho State Legislature, for which the required commitment is less than full-time, shall be granted leave with pay and benefits for those days or portions of days requiring absence for the purpose of performing the duties of office during the legislative session.
2. Whenever the professional employee is compensated for duties accompanying release time and whenever the daily compensation rate is less than the District's daily compensation rate for the professional employee, the District shall pay the difference to the professional employee.
3. In the event the professional employee must participate in legislative duties before the legislative session begins (September through December), or after the legislative session ends, the professional employee shall receive pay and benefits at his/her daily rate for days or portions thereof, not to exceed fifteen (15) days. Thereafter, the professional employee shall pay the cost of the substitute for additional days or portions thereof.
4. Under no circumstances will the employee's compensation by the District and Legislature exceed the employee's contracted District salary.
5. All rights of renewable contract status, retirement, accrued sick leave, salary schedule placement, and other benefits provided herein shall be preserved and available to the professional employee upon returning to the District.
6. Requests for absence(s) shall be made known to the professional employee's building administrator as early as possible.

1. Busing the additional students to an appropriate school with space available.
 2. Assigning an instructional assistant to the classroom. However, if the student enrollment in that class drops below the limit, the instructional assistant will be reassigned or released after ten (10) days' notice. The instructional assistant assigned to the classroom of students shall remain with those students except under exceptional circumstances.

ARTICLE XVI - ASSIGNMENTS, VACANCIES, AND TRANSFERS

A. Assignments

1. A professional employee shall be assigned within the scope of his/her teaching certificates, or major or minor fields of study. Having once been assigned a specific grade level and/or subject matter area, the professional employee may be reassigned to a different grade level and/or subject matter area only after consultation.
2. Except for special circumstances, a professional employee shall continue in their same assignments and building placement(s) for the forthcoming year unless he/she is notified in writing no later than the first day of the last week of the school year. When changes in the schedule must be made after that date, an attempt shall be made to contact the professional employee by telephone. If contact is made by phone, a letter informing him/her of the change shall follow the phone contact. 3. When possible, a secondary teacher shall be scheduled with not more than two (2) preparations with the following exceptions:

6. The faculty of a school may appoint a committee to make recommendations by May 15 to the building principal regarding student teacher assignments.
7. **Association President's Assignments**

The District recognizes that a portion the responsibilities performed by the Presidency of the Association directly benefit the District and the public it serves by discharging certain administrative tasks, facilitating communication between the District and its teachers, and otherwise promoting high-quality educational services. The District further recognizes that such responsibilities require a considerable amount of the President's time during the normal teacher work day. The District further recognizes that, absent the Association President taking on these responsibilities, the District would be required to hire another administrator to perform the same and/or similar functions. The Association

recognizes that such responsibilities that benefit of the District occur primarily during the contract work day, and that other Association work occurs outside the hours of the contract work day.

The Association President will perform the responsibilities customarily associated with the office, including without limitation:

- a. Serve on the Joint Insurance Committee with the District;
- b. Train teachers, administrators, and classified staff at school facilities on changes in the laws and regulations;

- j. Provide school team facilitations and leadership trainings as requested by the District and individual school sites;
- k. Attend and participate in the District's Strategic Planning meetings;
- l. Attend and participate in meetings to implement the District's communication strategies;

In consideration of the responsibilities outlines above, as well as the other provisions of this agreement, the District agrees to reimburse the Association the cost of salary and benefits of a first year teacher (B.A., 1, I. A). Upon written request of either party, the parties, within thirty (30) days following the written request, will re-open negotiations on any portion of this subsection (Association President's Assignment) as specified in the written request. The parties will bargain in good faith on said matter until such time that the parties mutually agree on substitute language, if any, or until such time that the agreement expires pursuant to law. During the pendency, this provision of this subsection will remain in full force and effect. All other portions of the agreement shall continue to be valid and binding upon the parties to the agreement.

B. Vacancies and Voluntary Transfers

1. It is the intent of the District that reasonable effort is made to provide all professional employees with information regarding the establishment of new positions as well as vacancies in existing positions for administrators, 9-12 head coaches' positions, athletic directors, and certificated employees.
2. Notice of vacancies in new and existing positions for administrators and certificated employees should: be dated; include the name of the school and/or level of position to be filled and other relevant information; be posted on the District's web page; and be made available via the District's email notification system upon registration. If a professional employee has questions about the status of a vacancy, he/she should contact the office of the appropriate director.
3. When a vacancy occurs at a school site, a professional employee may file a transfer application for the specific position with his/her current Area Director. The professional employee will provide a copy of the specific transfer request to his/her building administrator after submitting it to the Area Director.
4. All professional employees in good standing who have applied for voluntary transfers shall be considered in the development of the manifests for a particular vacancy. An applicant may be on more than one (1) manifest at a particular school; however, no applicant will have more than one (1) interview at that school in any application year, unless there is a change of principal during that year or at the request of the building principal.
5. The applicants selected for the manifest shall be interviewed by the building administrator(s), unless the provisions of item 4 apply. The District will notify, in a timely manner, any applicant who will not be interviewed for the position.
6. The District agrees to give consideration to the professional background, training, and achievements of all applicants. A professional employee who has requested a transfer will be given first consideration for any vacancy. Length of service and other relevant factors will be considered when all other qualifications are equal. Vacancies will be filled in compliance with those federal and state regulations which school districts are required to follow.
7. The District reserves the right to encourage additional applicants to apply when such action is to the advantage of the District.
8. Any change of assignment or grade level in a particular school made after a vacancy occurs shall be decided by the building principal. Such change of assignment shall not be part of the voluntary transfer process.
9. These restrictions apply to the vacancy/voluntary transfer process:
 - a. The District reserves the right, under "special circumstances" to fill vacancies in a timely manner.

- b. The District will not fill a vacant position for the ensuing school year until at least five (5) calendar days after advertising the position. The waiting period shall not apply once senior high school principals report to work, until two (2) weeks after school starts.
 - c. Notwithstanding the definition of "Day" in Article II – Definitions of the Master Contract, for the purposes of vacancies referred to in "b" above, "Day" shall mean any calendar day.
10. While the procedural process of voluntary transfer is subject to the grievance procedure, the content of the decision regarding said voluntary transfer is not subject to grievance.
 11. If requested by the professional employee, the reason(s) for the denial of voluntary transfer shall be provided by the appropriate director, principal, or supervisor.

C. Involuntary Transfers

1. The School District administration shall confer with appropriate members of the staff in an effort to resolve involuntary transfers in a mutually satisfactory way. The following procedures will be applied when it is determined by the appropriate director that a mutually satisfactory agreement cannot be reached. Involuntary transfers shall only be made for any of the following reasons:
 - a. The decrease in the number of students which requires a decrease in the number of professional personnel
 - b. The elimination of a program
 - c. The reduction of a program's funding
 - d. The closing of a school

2. Procedures

- a. When the District determines that there is a surplus of staff in a school and there are two (2) or more staff members currently employed in the identified surplus discipline of assignment at that school, the following procedure will be employed: the person who has the least District seniority of those affected professional employees in the specific grade level or department will be transferred to another school in the District where there is need for his/her services.
- b. Seniority lists will be posted and maintained on the District website on or before October 5th and updated as needed.
- c. Surplus senior high school staff will be transferred to other senior high schools whenever there is a vacancy in the discipline(s) or assignment(s) for which they are certificated.
- d. Surplus senior high school staff will be transferred to a junior high school in the event there is no vacancy for which they are qualified in any District senior high school. Should a senior high school vacancy for which such staff member is qualified develop prior to the opening of the school year immediately after the transfer, for the following school year, said staff member will be given the

opportunity to return to the senior high school from which he/she was originally transferred or to another senior high school.

- e. Surplus junior high school staff will be transferred to other junior high schools whenever there is a vacancy in the discipline(s) or assignment(s) for which they are certificated.
- f. Surplus junior high school staff will be transferred to a senior high school in the event there is no vacancy for which they are qualified in any District junior high school. Should a junior high school vacancy for which such staff member is qualified develop prior to the opening of the school year immediately after the transfer, for the following school year, said staff member will be given the opportunity to return to the junior high school from which he/she was originally transferred or to another junior high school.
- g. Surplus elementary staff will be transferred to another elementary school if available in the event there is no vacancy for which they are qualified within their school.
- h. Should an elementary vacancy for which such staff member is qualified develop prior to the opening of the school year immediately after the transfer, for the following school year, said staff member will be given the opportunity to return to the elementary school from which he/she was originally transferred.
- i. In the event a staff member must be placed in an assignment or teach a discipline for which he/she is certificated, but has not had teaching experience or major preparation, he/she will be provided an opportunity to return to a more appropriate assignment as soon as said vacancy occurs.
- j. When involuntary transfers are necessary, a professional employee shall not be assigned to a position outside the area(s) authorized by certificate endorsements.

3. Clarification

- a. This procedure applies only to staff members identified as surplus in a given school. If School "A" has surplus staff and School "B" does not, School "B" will not be affected by the problem existing in School "A."
- b. The initial date of assignment in the District will be the criterion for determining which person from among the identified surplus staff in a given school will be transferred.
- c. In the case of counselors, this procedure will be applied where possible without consideration for the gender of the individuals involved. However, due to the needs of junior and senior high school students, at least one (1) counselor of each gender must be assigned to a school.
- d. Personnel assigned as head coaches in the secondary schools (grades 9 through 12) shall not come under the purview of this procedure. Personnel in this category will continue to be assigned by the appropriate director. Drama, debate, newspaper, yearbook, and drill team must be maintained as a part of building programs where they currently exist. In the event no remaining qualified staff member agrees to assume those duties, the principal will request the appropriate director to determine the staff member who, according to seniority, will be transferred.

- e. In the case of disagreement as to the intent of these procedures, explanation of intent and resolution of the disagreement will be made by the appropriate director.
- f. In the event there is a staff member who has served in a counselor, supervisory, or administrative position or on special assignment in the District, his/her service in this capacity will be counted in calculating total District experience. Leaves of absence in excess of one (1) semester approved by the District shall not be counted as a year of service; however, any leave of absence approved by the District shall not be construed as interrupting the affected professional employee's years of service.
- g. In the event there are surplus secondary counselors and there is a vacant elementary counseling position, the least senior counselor from the pool of surplus secondary counselors will be assigned to said elementary counseling position. In the event there are surplus elementary counselors and there is a vacant secondary counseling position, the least senior counselor from the pool of surplus elementary counselors will be assigned to said secondary counseling position. Counselors must hold appropriate state certification.
- h. In the event there are surplus secondary counselors and there are no appropriate counseling vacancies in the District, said counselors will be assigned to classroom teaching where needed in subject areas for which they are certificated. In the event there are surplus elementary counselors and there are no appropriate counseling vacancies in the District, said counselors will be assigned to classroom teaching where needed in areas for which they are certificated.
- i. If a professional employee refuses a transfer back to the position from which he/she was involuntarily transferred, the professional employee shall have waived his/her right to subsequent return to said position.
- j. The professional employee has an ethical responsibility to provide reliable information concerning his/her intent to return for the next school year. The District may use the information provided with complete confidence that it is reliable, for the purpose of determining whether or not to secure a replacement.
- k. The term "seniority" as used in the Certified Employee Handbook shall mean the total number of uninterrupted contract years served in the District served in any position requiring a certificate issued by the State Board of Education. In the event there is a staff member who has served in a counselor, supervisory or administrative position, or on a special assignment in the District, his/her service in this capacity will be counted in calculating total District experience. It is further agreed that leaves of absence in excess of one (1) semester approved by the District shall not be counted as a year of service; however, any leave of absence approved by the District shall not be construed as interrupting the affected professional employee's years of service.

4. Combination Classroom Teachers

When the District determines that there is a surplus of staff in an elementary school due to the creation of a combination classroom and there are two (2) or more staff members currently employed in the affected grade levels of that school, the person who has the least District seniority in those affected grade levels will be transferred to another school in the District where there is a need for his/her service

ARTICLE XVII – EXTRAORDINARY VOLUNTARY TRANSFER

A. Statement of Intent

1. This article is intended to provide voluntary transfer relief to the professional employee who desires a transfer from his or her present position and assignment to another school site. It is understood that said employee has requested voluntary transfers in the past; however, for reasons beyond his or her control, he or she was not given a transfer to another school site.
2. In order to be eligible for an Extraordinary Voluntary Transfer, the professional employee must fulfill the criteria as outlined below. This article is not designed to supersede or to supplant the existing voluntary transfer policy, but to augment it. It is not intended to be used as a means of resolving personal or professional conflicts between the applicant and other District personnel.
